Encise Inc.

Information Security Management System Certification

ISO27001 Certification

Encise Inc. (Encise) announces to be awarded the ISO27001 Certification, an international standard for Information Security Management System (ISMS) on November 15, 2016.

Encise collects data related to medical and pharmaceutical products accumulated on a daily basis from pharmaceutical wholesalers, and supplies it to drug manufacturers, governments, and medical institutions packaged into the latest trends in drug demand or marketing information by region. As a company handling valuable data, we recognize that it is essential to build and maintain a high-quality information security framework. By acquiring the ISO 27001 Certification, third-party institution has proved that we have an adequate information security system.

Encise takes this step as continuous effort to maintain and improve the information security structure.
