Encise Inc.

Quality Management System Certification

ISO9001 Certification

Encise Inc. (Encise) announces to be awarded the ISO9001 Certification, an international standard for Quality Management System (QMS) on December 25, 2017.

We understand that doing our utmost to improve customer satisfaction in relation to the provision of pharmaceutical product-related information is our highest priority. With this in mind, we have acquired the ISO9001 Certification to impress upon all those involved the importance of this priority and strive to improve the quality of the products and reduce customer complaints to the minimum. From now on, we will maintain and continuously work to improve the Quality Management System based on ISO9001.
